SAFETY DATA SHEET

FRUIT AND VEGETABLE JUICES AND CONCENTRATES

1. Product Identifier/Supplier Contacts

| | |
|-----------------|--|
| Product Name | Fruit and Vegetable Juices and Concentrates |
| Item Number | 300000-399999 |
| Lot Number | YYMMDDNN |
| Recommended Use | Reprocessing such as dilution with water and/or pasteurisation and consumption. |
| Supplier | Mildura Fruit Juices AUST Pty. Ltd. 15-29 The Crescent Mildura Vic 3500 Tel: 0350 189 501 Fax: 0350 222 356 |
| Emergency | Manufacturing Manager 0419 323 457 |

2. Hazard Identification

| | |
|-------------------------------------|---|
| Hazard Code, Statement and Category | H315 Causes skin irritation Category 2 H319 Causes serious eye irritation (High acid concentrate such as lemon concentrate) H332 Harmful if inhaled (Products containing high levels of sulphur dioxide) |
| GHS Symbol |  |
| Signal Word | Warning |
| Precautionary Statements Prevention | P264 Wash hands thoroughly after handling P261 Avoid breathing fumes. |
| Precautionary Statements Response | P302 + P352 IF ON SKIN: Rinse skin with plenty of soap and water. P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P362 Take off contaminated clothing and wash before reuse P304 + P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. |

3. Composition/Information on Ingredients

| | |
|---------------|--|
| Ingredients | Fruit and vegetable juice and other food grade ingredients. Refer to specification for proportions and type. |
| CAS No. | None allocated |
| GHS No. | None allocated |
| Concentration | Can be single strength or up to nine times concentrated |

4. First Aid Measures

| | |
|-------------------|--|
| Inhaled | Sulphur Dioxide can affect asthmatics. Move to fresh air and seek medical advice. |
| Ingested | Sulphur Dioxide can affect asthmatics. Move to fresh air and seek medical advice. |
| Skin | Wash skin with water to remove material. No further measures should normally be required. |
| Eyes | Keep eye open, immediately irrigate with water or eye-wash for 15 minutes. |
| Symptoms | Symptoms are typical of exposure to an acidic food or sulphur dioxide. |
| Medical Attention | No known delayed effects. Where symptoms persist, seek medical attention. Treat symptomatically. |

5. Fire Fighting Measures

| | |
|----------------------|--|
| Extinguishing Media | Use media suitable against the surrounding fire or cause of fire. |
| Specific Hazards | No risk of fire, explosion, fumes or gases. |
| Protective Equipment | Suitable for the surrounding fire. No specific protective equipment required for this product. |

6. Accidental Release Measures

| | |
|---------------------------|---|
| Personal precautions | None needed |
| Environmental Precautions | Organic product. Will increase COD demands of waste/environmental water |
| Containment and Cleanup | Minor spills do not normally need any special clean up measures. In the event of major spill, prevent spillage entering watercourses. Stop leak if safe to do so, and contain spill. Collect recoverable product into a labelled container for recycling or salvage. Alternatively, cover the spill with sand and when the sand has adsorbed the liquid, shovel into a suitable container for disposal. Wash the area with water and dispose of in accordance with local regulations. |

7. Handling and Storage

| | |
|--------------------|---|
| Usage Precautions | Follow GMP when handling and using product. |
| Storage Conditions | Refer to requirements on specifications. |

8. Exposure Controls/ Personal Protection

| | |
|-------------------------------------|---|
| Control Parameters | Good industrial hygiene practice. |
| Engineering Controls | Products containing sulphur dioxide should be used in a well ventilated area. |
| Personal Protective Equipment (PPE) | Protective gloves and eye protection may be worn but not required. |

9. Physical and Chemical Properties

| | |
|-----------------------|---|
| Appearance | Refer to specification |
| Odour | Refer to specification |
| pH | 2.5 to 6.5 |
| Freezing point | 3°B 0°C 45°B -15°C 70°B approx. -35°C |
| Initial Boiling Point | 97°C |
| Flash Point | No available data |
| Flammability | Not flammable. Flash point >93°C |
| Relative Density | 1.02 – 1.40 |
| Solubility | Readily miscible with water |
| Viscosity | 5 to 14,000cps |

10. Stability and Reactivity

| | |
|----------------------------------|--|
| Reactivity | Non reactive. |
| Chemical Stability | Most products will ferment under ambient storage conditions. Timing will vary by product. Refer to specification sheet |
| Conditions to avoid | No data available. |
| Incompatible materials | No data available. |
| Hazardous decomposition products | No data available. |

11. Toxicological Information

| | |
|-----------------------------------|--------------------|
| Acute toxicity | No data available. |
| Skin corrosion/irritation | No data available. |
| Serious eye damage/irritation | No data available. |
| Respiratory or skin sensitisation | No data available. |
| Germ cell mutagenicity | No data available. |
| Carcinogenicity | No data available. |
| Reproductive toxicity | No data available. |

| | |
|---|--------------------|
| Specific Target Organ Toxicity (STOT) – single exposure | No data available. |
| Specific Target Organ Toxicity (STOT) – repeated exposure | No data available. |
| Aspiration hazard | No data available. |

12. Ecological Information

| | |
|-------------------------------|--|
| Ecotoxicity | No data available. |
| Persistence and degradability | No data available. |
| Bioaccumulative potential | No data available. |
| Mobility in soil | No data available. |
| Other adverse effects | Organic product. Will increase COD demands of environmental water. |

13. Disposal Considerations

| | |
|------------------------------------|--|
| Safe handling and disposal methods | Any plastic or plastic lined container can be used for disposal. |
| Disposal of contaminated packaging | Rinse with water and recycle or dispose of as usual. |
| Environmental regulations | Check local council requirements for COD and soluble solids levels in waste water. |

14. Transport Information

| | |
|--------------------------------------|------------------------|
| UN Number | None allocated |
| Proper shipping name | Refer to specification |
| Transport hazard class(es) | None allocated |
| Packing group | None allocated |
| Environmental hazards | No data available. |
| Special precautions during transport | None required. |
| Hazchem Code | None allocated |

15. Regulatory Information

| | |
|-------------------------|----------------|
| Specific regulations | None |
| Poisons Schedule Number | None allocated |

16. Other Information

| | |
|---------------------|---|
| Date of preparation | Refer to the document control table in the header. |
| Key acronyms | COD- Chemical Oxygen Demand GMP- Good Manufacturing Practice Single Strength- The form in which the juice will be consumed. The diluted form of a concentrate |
